

CORK FABRICS

REINVENTING
PRINTING TECHNIQUES
ON CORK

Reinventing how cork engages the world.

AMORIM

CORK COMPOSITES

INNOVATIVE TEXTILE MADE FROM NATURAL CORK FOR ENDLESS APPLICATIONS

Transform cork into anything you want

In nature, everything is transformed. Natural features are maintained, new technology is applied and new possibilities are created. The result is a natural product, a new cork material* which is flexible, durable and versatile for use in various sectors such as interior decoration, the footwear industry or transport. Cork is never just cork. It is everything you can do with it.

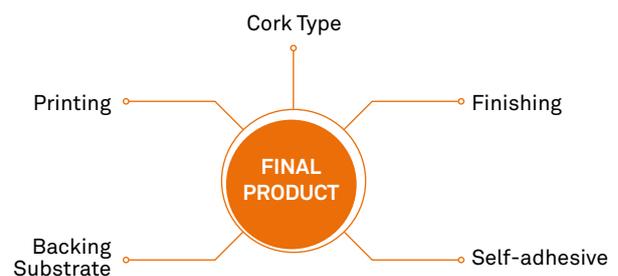

* patent pending.

The ultimate innovation in cork transformation

- **New Finishing Technology** – the fusion of polymeric layer over agglomerated cork (patent pending);
- **New printing techniques on cork** – Sublimation, Transfer and Digital Printing;
- **Use of lamination/gluing technology** – enables it to be applied to highly flexible and durable materials, thus enhancing the properties of natural cork in terms of impermeability and mechanical resistance;
- **Available in different backings substrates and finishings.**

Building the final product

*With this structure, you can customize your product, choosing the Cork Type, Backing Substrate, Printing, Finishing and the Self-adhesive.

Innovation achievements in cork fabrics

- Higher flexibility;
- Higher mechanical resistance;
- New diversity of colors and patterns;
- Durable finishing;
- Machine washable;
- Good abrasion resistance.

Cork features that make it all possible

	20% to 25% lighter.
	Softness.
	Thermal insulation.
	Elastic and Compressible.
	Ecological.

Application examples

The data provided in this brochure represents typical values.
